All enclosures constructed with a 1" square furniture-grade PVC frame and 14 gauge 1" x 2" PVC Coated wire. Equipped with stainless steel marine-grade hinges and spring-loaded safety latches.

For additional flexibility ~ use the multi-level enclosures so that the animals have access to all levels. Order your upper floors with an access hole or the recessed litter pan option. When the litter pan (provided) or floor insert (optional) is in place, the levels are completely separate ~ but take it out and the animal can easily move between levels!
