

CD&E WALK-IN ENCLOSURES

Available with Solid and Partial Solid Panels, Extra Doors

Pictured Below: Model w545
Shown with 3' Partial Solid and Barn Doors

Options: Safe Zone, Smaller Mesh, Heavier Gauge Wire

All CD&E Walk-in enclosures are constructed with a 1" square anodized aluminum pipe frame and 14 gauge 1" x 2" PVC coated or uncoated galvanized steel wire.

Equipped with stainless steel marine-grade hinges and spring loaded safety latches.

Standard with full-height entry door.

Available with or without Shelves
